## SMART ROBOTS for Tomorrow's Building

Working in teams, students will learn coding to instruct a simple ROBOT to move objects in construction challenges. We will provide a hands-on workshop using a Raspberry Pi. You will also learn about programmable electronics for making lights blink, motors run and a lot more.

The set-up is easy for beginners, challenging for experienced programmers and fun for everyone in grade 6-12.

## The Baker AfterSchool Center Opens Tuesday, August 29

It will open every afternoon that Smithfield schools are in session, 2:00-5:00 Monday through Friday.

We have computers, tables to work on for projects and homework, and a librarian to assist you. Quiet homework time lasts until 3:00 with social time after that.

Watch for special days that include crafts, gaming, cooking, movies and Minecraft Fridays. Updates will be posted on our Facebook page. It is available for anyone in grades 6-12 and no sign up is necessary!
